## CARCASSES

### Door opening mechanism

The Salice hinges are mounted with the Easyclip system for easy disassembly and can be adjusted in three directions.

They also have an automatic hooking system and have been tested to German regulations.

The hinges have been tested to withstand over 50,000 open/close operations (equal to approximately 30 year's use). They allow 110° opening (180° for the plate drying rack)

## CARCASSES

The distinctive elements

The base, wall and larder units are provided with **anti-dust and anti-bash gasket** in the same finish as the carcasse

## CARCASSES

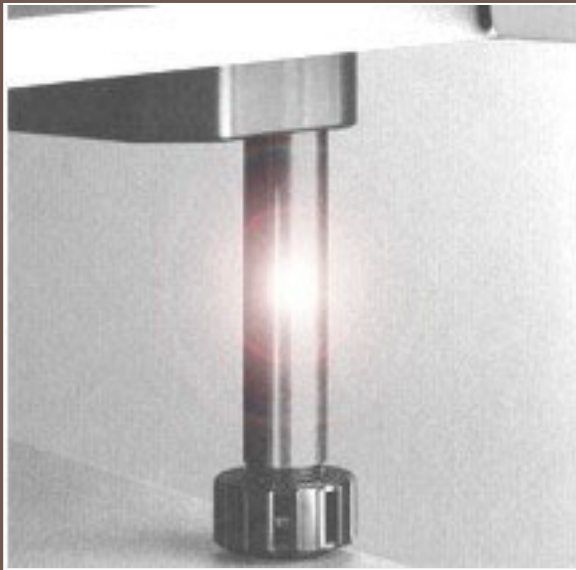

The distinctive elements

Base unit carcasses have horizontal posts made of solid fir-wood

## CARCASSES

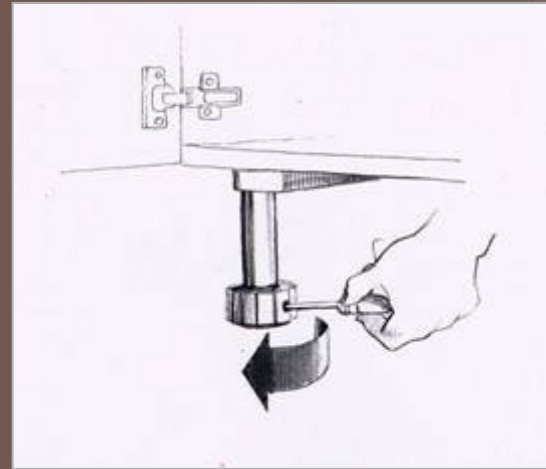

### Legs

The supporting legs are attached to the base **without drilling through the bottom panel**, to ensure maximum cleanliness inside the unit.

## CARCASSES

### Legs

The supporting legs are covered by the Exacto guarantee that ensures the alignment and stability of the base unit. The legs can be adjusted (10-15-20 cm) to ensure maximum ergonomics for the user.

## CARCASSES

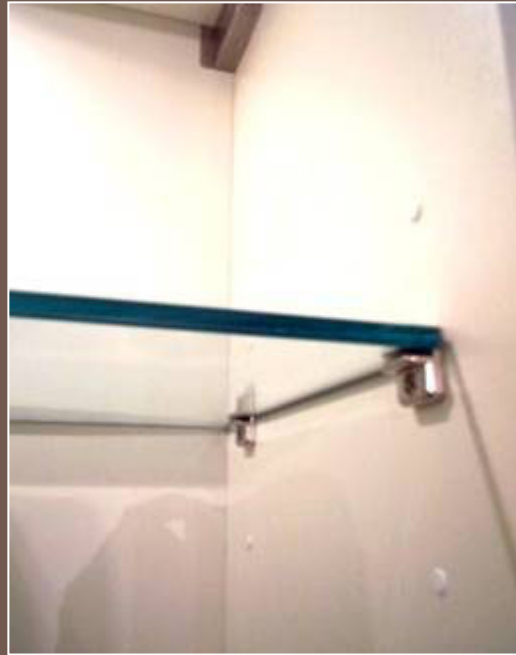

The distinctive elements

Tightening profile, in st. steel, for all wall units' back panels wider than 60 cm.

## CARCASSES

The distinctive elements

The internal shelves, both in glass and melamine, provide an anti-tip and anti-slip system

## CARCASSES

The distinctive elements

The glass of the internal shelves is made of toughened glass

## CARCASSES

The distinctive elements

All glass doors are made of  
toughened glass

## CARCASSES

The distinctive elements

The bottom panels of base, wall and larder units are equipped with a **plastic corner element** to facilitate the cleaning operations.

## CARCASSES

The distinctive elements

The sink base units have a standard aluminium-lined bottom panel. As an option, even the side panels can be aluminium-lined. An anti-infiltration gasket is running on the edges, whereas the chain at the back is made of st. steel

## CARCASSES

The distinctive elements

On the sink base units 80, 90 and 120 cm wide, featuring hinged doors, two oleodinamic pistons are installed on the front post to allow a soft closing.

## CARCASSES

The draining wall units

The draining wall units can be completely lined, internally, in aluminium.

## CARCASSES

The draining wall units

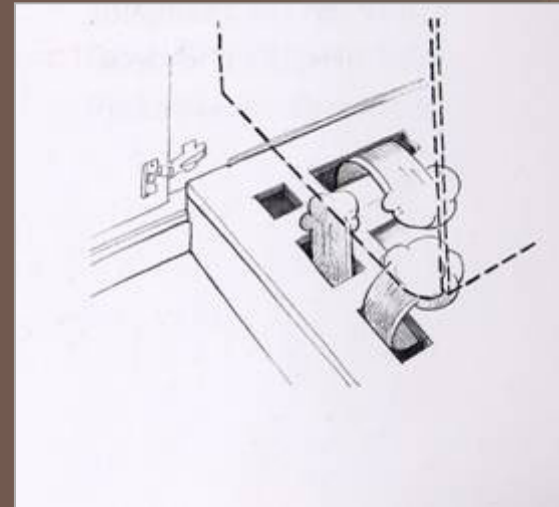

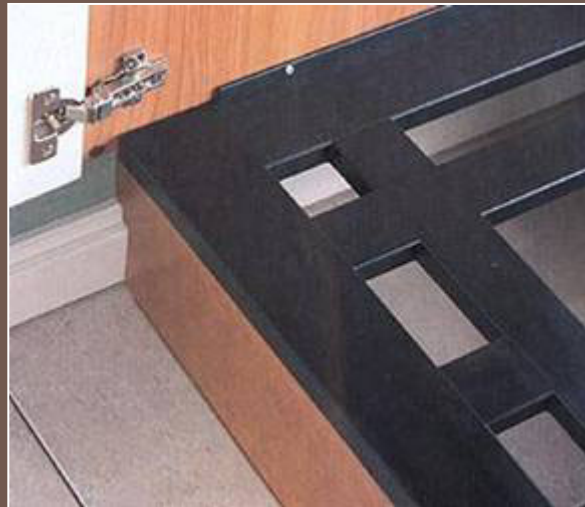

Self-standing plate draining units with lift-up door have oleodynamic devices which allow for a soft door closing

## CARCASSES

The fridge base

The bottom of each fridge-housing tall unit is provided with the "frigoair" system. This system improves the air circulation and, being made of plastic material, in the event of water leaking out, it prevents the bottom from swelling up.

## CARCASSES

New depth

A new range of 72-cm-deep cabinets is now available for all the models.

The new depth improves the storage capacity of drawers and baskets and allows for a deeper worktop surface.

## CARCASSES

Distinctive elements

A st.steel closing blade is available for the oven's front profile

back

next

## PLINTHS

The Snaidero range

Plinths are available in the following materials:

- On aluminium support:

- Matte lacquers (all the colours of the range) h 10-15-20
- Aluminium (glazed or glossy ) h 10-15-20
- Tiled (all the patterns of the range) h 10

- On PVC support:

- PVC covered (pearl white, graphite grey, silk white) h 10-15
- Wood imitations (stained beech) h 10-15
- Veneered wood (light oak, brandy oak, dark oak, soft cherry, oxford cherry, blue tinted chestnut , green and beige) H 10-15
- Shaped wood: soft wood, mahogany H 15

## PLINTHS

The Snaidero range

The compensation plinth, 10 and 15 cm high, is available in  
matte lacquer and aluminium finish

## WALL UNITS

The distinctive elements

The lift-up doors, 36, 45 and 45cm high, have opening systems with oleodinamic pistons

## WALL UNITS

The distinctive elements

Wall units h.45, also available with integrated hood  
and draining rack

## WALL UNITS

The distinctive elements

The lift-up doors are equipped with a mechanism which makes the opening easier and more functional

## WALL UNITS

The distinctive elements

Wall units with the "Swing" opening system:

- New glass doors with the large aluminium frame and the new "Swing" opening mechanism
- The glass is available in the extra-white, graphite grey and toasted brown finishes. The available dimensions are: 45, 60, 90 and 120 cm wide and 45 and 54 cm high.

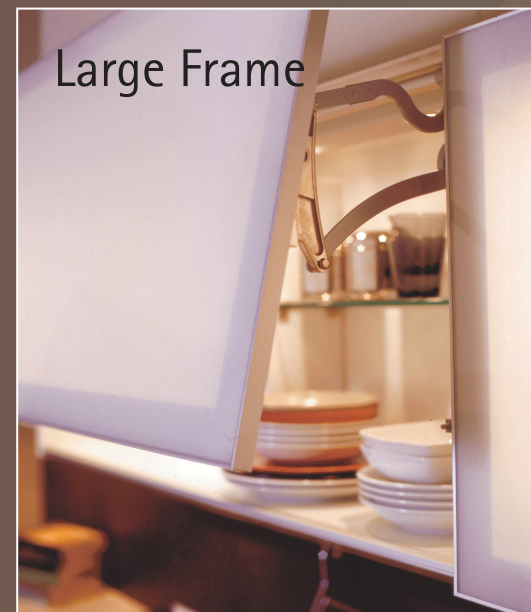

## WALL UNITS

The distinctive elements

Glass doors with aluminium frame are available in different aesthetic versions:

## WALL UNITS

The distinctive elements

Glass doors

Glasses are available in the finishes:

Frosted glass (tall unit with large and thin frame)

Extra-light white

Brown

CUCINE PER LA VITA

## WORKTOPS

The distinctive elements

The postformed laminate worktops are provided with an **anti-drip system** to prevent liquids from overflowing

The marble, granite and quartz stone worktops are also available with the **anti-drip front edge**

## WORKTOPS

The distinctive elements

The specific worktop of "channel-style" models, is available in the following materials :

- Laminate
- Marble and granite
- Quartz Stone
- Wood stiles
- St. steel

## WORKTOPS

The distinctive elements

St. steel worktops, featuring different section profiles, can be supplied custom-sized

## WORKTOPS

The distinctive elements

The 4-cm-thick worktops in :

- Solid wood stiles
- laminated with uniform ABS front edge

Can be custom-shaped following to the client's drawing

Max size 417 cm long, 115 cm deep

## WORKTOPS

The distinctive elements

Aluminium corner joint for  
laminate worktops and wood  
front lipping

## WORKTOPS

The distinctive elements

Supporting leg in wood veneer for peninsula and snack configurations

St. steel supporting leg, adjustable in width and in height, to conceive back counters and snack tables

## WORKTOPS

The splashback

Aluminium protection profile for the back

## WORKTOPS

### The splashback

The splash-back is available in:

- Marble or granite (same finish as the work-top)
- Aluminium 3 cm high (satined or bright)
- Aluminium 1 cm high (champagne and titanium finishes)

back

next

## LARDER UNITS

The distinctive elements

Equipped larder unit 90 and 120 cm wide, complete with lighting system, worktop and back panel in st. steel. Also featuring shelves in chrome wire and hooking bars, besides wide drawers and baskets.

As an option, this larder unit can be supplied with the aluminium internal lining

## LARDER UNITS

The distinctive elements

Larder unit 120 and 180 cm wide,  
supplied with chrome wire shelves.

As an option, it can be equipped with  
lights and internal aluminium lining

Sliding doors-"bi-folding" opening with  
one-rack mechanism

## LARDER UNITS

The distinctive elements

Pull-out larder unit 30 cm, internally featuring five baskets in chrome wire with a "soft" closing mechanism.

## LARDER UNITS

The distinctive elements

Pull-out larder featuring two baskets fixed to the door and two independent internal pull-outs

## LARDER UNITS

The distinctive elements

Larder tall unit, 45 or 60 cm wide, with internal sliding baskets made of chrome metal wire , featuring a "soft" closing mechanism.

A rubber bottom for the internal baskets is also available, upon request.

## LARDER UNITS

The distinctive elements

Corner larder tall unit, available in 216, 198 and 144 cm height.

The internal equipment includes a set of rotating chrome wire baskets.

## LARDER UNITS

The distinctive elements

Corner larder tall unit internally equipped with chrome wire shelves.

Upon request, a sensor light and a set of chrome wire accessories can be supplied.

## LARDER UNITS

The distinctive elements

On-top shutter unit, 122 cm high, 45 cm deep, and 60 or 90 cm wide. The garage front can be either in glass or aluminium.

Providing electrical sockets and switches, it is suitable for housing small electrical appliances

## LARDER UNITS

The distinctive elements

Corner pantry unit 100x100 cm .  
featuring a glass curved sliding  
door available in : white, brown  
and dark grey finishes.

The internal equipped includes  
swivelling baskets in chrome wire  
to make the best use of the corner  
area, and a functional lighting  
system.

## LARDER UNITS

The distinctive elements

Glass tall units, also available with aluminium internal lining, can be 122, 144, 198 or 216 cm high. The frosted glass doors have bright aluminium finish.

## LARDER UNITS

The distinctive elements

Open shelving units are available in different modularities. The structure is available in three wood finishes while the shelves can be supplied in : laminate, ,matte lacquer, wood veneer and chrome wire.

## LARDER UNITS

The distinctive elements

A new height of 108 cm for the larder units, including housing cabinets, is now available for all the ranges.

## DRAWERS AND BASKETS

The distinctive elements

All the eye-level ovens make the most of the space below the oven with a 12cm high drawer

## DRAWERS AND BASKETS

The distinctive elements

The baskets under the sink, available in 60, 90 and 120 cm width, are completely covered in aluminium and are equipped with bins for different garbage collection, and include a complete cleaning set.

## DRAWERS AND BASKETS

The distinctive elements

Wooden dividers for 30 cm wide drawer, with knife-tray, napkin-holder and spice-tray are suitable for a small storage space or as an integration to other accessories

## DRAWERS AND BASKETS

The distinctive elements

Wooden equipments featuring: a set of professional knives, a set of kitchen tools and a set of cutlery for 45 cm wide drawers

## DRAWERS AND BASKETS

The distinctive elements

Wooden equipment featuring both a set of professional knives and a set of kitchen tools for 60 cm wide drawers

## DRAWERS AND BASKETS

The distinctive elements

Wooden equipment featuring both a set of professional knives and a set of kitchen tools for 90 cm wide drawers

## DRAWERS AND BASKETS

The distinctive elements

Spice racks, polyethylene chopping boards, tray and wooden knife rack can be inserted on the sides of the 45 cm or 60 cm drawers

## DRAWERS AND BASKETS

The distinctive elements

Cutlery tray, made of solid Iroko wood, sliding on the worktop

## DRAWERS AND BASKETS

The distinctive elements

Cutlery tray for drawer in plastic material or wood  
available in 30, 45, 60 and 90 cm width.

## DRAWERS AND BASKETS

The distinctive elements

Drawer equipment for the coffee machine complete of st. steel specific trays and a beater.

## DRAWERS AND BASKETS

The distinctive elements

Modular system of Bloom trays for cutlery and accessories in stainless steel  
available for drawers 45, 60 and 90 cm wide.

The trays can be washed in the dishwasher.  
A deeper dimension is available for 75 cm deep drawers

## DRAWERS AND BASKETS

The distinctive elements

Pot rack basket equipped with stainless steel dividers to hold the lids,  
adjustable in two heights

A deeper dimension is available for 75 cm deep baskets

## DRAWERS AND BASKETS

The distinctive elements

Removable plate rack for basket

## DRAWERS AND BASKETS

The distinctive elements

Dish-holder, lid-holder, glass-rack and cutlery tray, equipped with drip tray and st. steel grills for 60 and 90 cm wide basket

## DRAWERS AND BASKETS

The distinctive elements

Storage-rack for baskets available in two sizes, 45 and 60 cm, equipped with two stainless steel sides and adjustable, double height, stainless steel dividers

## DRAWERS AND BASKETS

The distinctive elements

Storage and bottle rack for basket, 90 or 120 cm, equipped with two sides and a stainless steel divider; adjustable, double height, stainless steel dividers; and a bottle rack with container tub with stainless steel bottom for easy cleaning

## DRAWERS AND BASKETS

The distinctive elements

Removable bottle-holder for  
baskets made of chrome wire.

## DRAWERS AND BASKETS

The distinctive elements

Rubber bottom for drawers and baskets, featuring an anti-sliding surface and a "bright" finish.

## DRAWERS AND BASKETS
